I am a Frontend Engineer with over two years appreciable experience in building UI for web applications. I am highly skilled in Web technologies such as Vanilla Javascript, React, Angular, HTML and CSS.

## EDUCATION

Obafemi Awolowo University,  
Bachelor of Art,  
English Language

## EXPERIENCE

- Terragon Group, Lagos, Nigeria — *Frontend Engineer* Sept 2021 - Till Date

### *Reward Engine and Terragon CDP Platform*

Worked on the Application by rebuilding the old one, added with new features with a team of engineers that developed a bulk SMS platform that schedules campaigns to run and do targeted marketing for millions of users.

Furthermore, I worked on a reward engine authentication flow to allow a new user to register, signup, login, and be able to reset passwords too and worked on additional features not existing on the old reward engine.

## Enterprise Engineering

As an Enterprise Engineer I ensured the safety of the company's computers by installing necessary apps. We make use of technologies such as: Mikrotik, Anydesk, Microsoft Desktop, Jira, Confluence, G suite. I also issue new cards and disable cards for door accessibility.

- **Cliconmax Communications, Osun State, Nigeria — Frontend Engineer, June 2020 - July 2021**

I worked as an Intern in building a user interface for a school website with different pages and features.

I also created a chatbox to help clients communicate with the school management.

## PROJECTS

**Technologies Used** - React.js, Angular, and Bootstrap.

[github](#), [Achschools](#), [countriesapp](#), [myPortfolio](#), [notificationPage](#)

## TECHNOLOGIES

JavaScript	Git
